

# Family Medicine

---

RESIDENCY PROGRAM AT  
**North Florida Regional  
Medical Center**

# **Welcome to the Family Medicine Residency Program at North Florida Regional Medical Center**

The Family Medicine Residency Program at North Florida Regional Medical Center is part of the HCA Healthcare Graduate Medical Education network. HCA Healthcare is the nation's leading provider of quality, patient-centered care. We are also the leader in graduate medical education, all brought together by a single mission:

**Above all else, we are committed to the care  
and improvement of human life.**

Since 2015, our mission has been simple: Provide outstanding evidence-based “cradle-to-grave” medical care to underserved families in Gainesville, FL.

We have 24 competent and compassionate residents who recognize that psychosocial determinants (poverty, economic/government policies, demography, and environment) play a critical role in the morbidity and mortality of disease. We are looking for applicants who understand this relationship, and are willing to dedicate themselves to making our community healthier.

The relationship between our patients and residents is symbiotic. For patients, the benefits are clear and obvious: high quality care is delivered to those who would not otherwise have access. For residents, an incomparable learning pathology: equipping them with a source for high level learning and improvement.

Graduates of our program find it to be one that genuinely blends academic focus with the values of community and the warmth of “family” in medicine.

## Our Leadership Team

**David M. Quillen** MD, Program Director

I have had the privilege to work with and train family medicine residents for over 26 years. With our team of outstanding faculty, we support an open, transparent and positive environment for residents to grow, learn and become outstanding family physicians. I am incredibly proud of our graduates and their success.

**Scott Lang** MD, Associate Program Director

I love what I do and the family I'm a part of. Our residents care for the most vulnerable and often overlooked members in my community, and extending these patients kindness is an honor for me. I love teaching, I always have. Serving the residents brings me passion and purpose in my life.

**Shana Ninan** MD, Program Coordinator

I count myself extremely fortunate to have found "home" in my career. The work that our residents do, and our leadership team supports, brings me an enormous sense of pride and accomplishment.

**Lisa Chacko** MD, Faculty

I am grateful to belong to this group of educators and residents. The program directors have created a culture that is warm and welcoming, where you can come to work and be your authentic self. This supportive environment is critical to our work caring for an underserved patient population.

**Gerald Keller** DO, faculty

As a native Floridian, my life passions involve water and medical education. Be it diving or healing, I love teaching my daughters, my patients, my students, and my residents. I consider myself so fortunate to work alongside such bright and passionate learners as I often learn more from those whom I am teaching.

**Jason Konopack** MD, Faculty

It's fulfilling and humbling to participate in the growth of our amazing residents: thriving individuals becoming world-class physicians, far beyond simple technical skill or rote memorization. This residency fosters service, self-improvement, confidence, and a sense of peace – it's illuminating and contagious, an ideal place to learn, grow, and teach.

**Louis Kuritzky** MD, Faculty

Replace text with As I look back at 48 years of practicing medicine, I can't think of any more rewarding way to have spent the time. Now, surrounded by an 'educational family' of deeply committed colleagues, who could do anything other than celebrate the sharing of our common goal: helping each other to best help others. We welcome the company of kindred.

**Aniruddha Logan** DO, Faculty

As an osteopathic physician, my passion is integrating manual medicine into practice. I truly relish being part of this residency and the strong culture of academic exchange. There is a sense of family here. I am inspired by the shared desire amongst the faculty to want to create the best physicians possible.

**Courtney Stahl** PsyD, Behavioral Health Faculty

The ability to foster the love of learning and enhance empathy for our patients is what drives me to remain passionate about my work with residents. This work challenges me to be my best self, be grateful for the little things in life, and continue to find opportunities to laugh at myself.

## Class of 2022

**Shauna Bedasse**  
MD  
Chief Resident

**Wassim Moussa**  
MD  
Chief Resident

**Alicia Benjamin**  
MD

**Bethsy Daverman**  
MD

**Sarah Isom**  
MD

**Gabriella Muller**  
MD

**Jordan Phelps**  
DO

**Nancy Si**  
MD

**George Yazji**  
MD

# Class of 2023

**Anjali Hardeo**  
DO

**Josef Leetmaa**

# About North Florida Regional Medical Center

North Florida Regional Medical Center (NFRMC) is a full-service medical and surgical acute care center serving the North Central Florida area. In 2017, the Gainesville-based community hospital, and its services, grew substantially. This includes the addition of two new full-service, 24/7 Freestanding Emergency Rooms, the achievement of a leading Stroke program in the Hospital Corporation of America (HCA) as measured by a DNV-GL certification, and the introduction of advanced cardiovascular technology, including the Transcatheter Aortic Valve Replacement (TAVR). Additionally, NFRMC's Women's Services held its status as the hospital that delivers more babies for our community (over 3,200). North Florida Regional remains a leader in delivering quality, award-winning healthcare to the Gainesville community and its surrounding areas.

NFRMC is a part of North Florida Regional Healthcare, a healthcare system that also includes a number of other outstanding medical programs dedicated to quality healing. Those programs include the Florida Heart and Lung Institute, Neurosurgical Specialists of North Florida, Pulmonary and Sleep Medicine, the Heart & Vascular Center, the Cancer Center, the Women's Center, the Robotics Center, Invision Imaging, the Center for Obesity Surgery & Treatment, the Neuroscience Center, the Endoscopy Center, the Sleep Disorders Center, Wound Therapy and Hyperbarics, Company Care and the Behavioral Health Center, as well as primary medical care that includes Gainesville Family Physicians, Gainesville Internal Medicine Physicians, and the Senior Healthcare Centers.

# About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

● HCA Healthcare Hospital

## Size

HCA Healthcare Graduate Medical Education is the largest sponsor of residency and fellowship programs across the nation.

**4,637**  
residents

**289**  
fellows

**218**  
specialty programs (residencies)

**79**  
sub-specialty programs  
(fellowships)

## Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

**2,500+** HCA Healthcare GME scholarly activities in 2020-21.

## Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

**32+ million** patient encounters  
**7.4 million** emergency room visits  
**215,000+** babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

# A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Our experiential learning is rooted in evidence-based medicine that leads to innovative, **real-world patient health solutions**.

Merging the rigor of **ACGME** accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer **National Grand Rounds** that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation's leading medical experts to our residency and fellowship programs.

#### **Notable Publications**

- *JAMA Internal Medicine*
- *Annals of Surgical Oncology*
- *CHEST Journal*
- *American Journal of Respiratory & Critical Care Medicine*
- *Obstetrics & Gynecology*

#### **Notable Presentations**

- American College of Cardiology
- Society of Critical Care Medicine
- American College of Physicians
- Society of Hospital Medicine
- American College of Surgeons

## **Influential Collaboration**

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

**HCA Healthcare Scholarly Commons** is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

# About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
