

Transitional Year

RESIDENCY PROGRAM AT
Brandon Regional Hospital

Welcome to the Transitional Year Residency Program at Brandon Regional Hospital

The Transitional Year Residency Program at Brandon Regional Hospital is part of the HCA Healthcare Graduate Medical Education network.

HCA Healthcare is the nation's leading provider of quality, patient-centered care. We are also the leader in graduate medical education, all brought together by a single mission:

Above all else, we are committed to the care and improvement of human life.

The Transitional Year Residency Program at Brandon Regional Hospital is an ACGME accredited one-year training program with 13 PGY One Residents. The sponsoring programs are the Internal Medicine residency programs.

ACGME requires that 24 weeks of a Transitional Year Resident training be devoted to a discipline that offers fundamental clinical skills, including emergency medicine, family practice, internal medicine, obstetrics/gynecology, pediatrics, or surgery. We satisfy these requirements with the following rotations ICU, ED, SURG, FM, and IM. The Transitional Year consists of thirteen blocks and is designed to provide a comprehensive experience in general medicine, in both the inpatient and ambulatory settings. The residents are integrated into core rotations and electives with other categorical residents.

The program director will work directly with each resident to fulfill the requirements for a clinical base year in his or her chosen field. This program is designed to provide our residents with the educational experiences needed to prepare them for the next level of postgraduate medical education training. Our program, faculty, and hospital are all committed to providing a quality educational experience that will prepare our graduates for their future specialty residency program.

Our Faculty

Stephen Mester, MD, FACC

Program Director

Dr. Mester is Board Certified in Internal Medicine with subspecialty certification in Cardiovascular Diseases from The American Board of Internal Medicine. A graduate of the University of Florida College of Medicine, his residency was completed at the University of South Florida, Tampa, FL. Cardiology and Interventional Cardiology training was at the USF College of Medicine. He is reported in the US News and World Report “Top Doctor” as one of the best physicians. Dr. Mester is currently Medical Director of Electrophysiology Laboratory at Tampa General Hospital, Chief of Department of Cardiovascular Medicine and Cardiac Surgery at Brandon Regional Hospital, Medical Director, Cardiac Catheterization Laboratory Brandon Regional Hospital, and Clinical Assistant Professor of Medicine and Cardiology at the University of South Florida.

His major interests are in Interventional Cardiology, Cardiac Catheterization, Percutaneous Transluminal Coronary Angioplasty, Permanent Pacemakers, Implantable Defibrillators, Nuclear Cardiology and Congestive Heart Failure.

Kate Davis, MD
Anesthesiologist

Dr. Davis graduated Medical School at the University of Maryland in 2002. She then completed her residency in Anesthesiology at the University of Maryland in 2006. She now works with Greater Florida Anesthesiologists, LLC at Brandon Regional Hospital and became Core Faculty for the Transitional Year Residency Program in July 2020.

Diana Glaros, DO

Dr. Glaros graduated from Lake Erie College of Osteopathic Medicine in 2013. She then completed her residency training in Internal Medicine at Largo Medical Center in 2016. Dr. Glaros currently works with Allied Internal Medicine at Brandon Regional Hospital and is teaching faculty for the Internal Medicine Residency Program. She is also core faculty for the Transitional Year Residency Program.

Tatiana Reynolds, MD
Family Medicine Specialist

Dr. Reynolds graduated from State Medical Institute Of Chisinau Medical School in 1998. She completed her residency training in Family Practice at the University of Alabama in 2005 and now works with Allied IM at Brandon Regional Hospital. She is Faculty for the Internal Medicine Residency Program as well as Core Faculty for the Transitional Year Residency Program. In her free time she enjoys traveling, skiing and watching the Tampa Bay Lightning.

About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

To learn more about the benefits and expectations of training with an HCA Healthcare program, view our [Resident and Fellow Manual](#).

Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

2,500+ HCA Healthcare GME scholarly activities in 2020-21.

Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

32+ million patient encounters
7.4 million emergency room visits
215,000+ babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Our experiential learning is rooted in evidence-based medicine that leads to innovative, **real-world patient health solutions**.

Merging the rigor of **ACGME** accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer **National Grand Rounds** that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation's leading medical experts to our residency and fellowship programs.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
