

OB-GYN

RESIDENCY PROGRAM AT
**North Florida Regional
Medical Center**

Welcome to the OB-GYN Residency Program at North Florida Regional Medical Center

The OB-GYN Residency Program at North Florida Regional Medical Center is part of the HCA Healthcare Graduate Medical Education network. HCA Healthcare is the nation's leading provider of quality, patient-centered care. We are also the leader in graduate medical education, brought together by a single mission:

Above all else, we are committed to the care and improvement of human life.

We are excited to welcome you to the UCF/HCA GME Consortium (Gainesville) Obstetrics and Gynecology residency program! Our program is located in beautiful Gainesville, FL at North Florida Regional Medical Center (NFRMC). NFRMC offers comprehensive cardiovascular care, psychiatry, oncology, orthopedics, neurosciences, minimally invasive laparoscopic and robotic surgery, weight loss surgery and treatment, women's health, and wound therapy, among other services. Our program is unique in that we have an academic affiliation with the University of Central Florida, while still being located at a community hospital.

Our program is founded on the idea that the future of medicine begins in our communities. Our goal is to produce outstanding physicians who will meet the growing healthcare needs of our local residents. The mission of our program is to educate our residents in the entire breadth of obstetrics and gynecology and to help them develop a lifelong commitment to the learning and promotion of women's healthcare.

Residents will receive training in Obstetrics, Gynecology, and Ambulatory Medicine. In addition, residents will rotate through the subspecialty fields of, Maternal-Fetal Medicine, Reproductive Endocrinology and Infertility, Family Planning, Urogynecology, and Gynecology Oncology. We also have half day didactic teaching every Friday where we cover the full scope of Obstetrics and Gynecology, in addition to subspecialty lectures. Included in our weekly didactic teachings are monthly Journal Clubs and M&M conferences.

We invite you to explore our website to learn more about our program. We look forward to showing you all that we have to offer. <https://northfloridagme.com/obstetrics-gynecology/index.dot>

About the Program

Curriculum

In addition to general obstetrics and gynecology, our program includes rotations through all of the subspecialties, including maternal-fetal medicine (high-risk pregnancy), gynecologic oncology, reproductive endocrinology and infertility, family planning, and female pelvic medicine and reconstructive surgery. Our full-service obstetrics/gynecology clinic will provide a wide range of experience and pathology.

A unique feature of our program is the Advocacy rotation. Residents will learn how economic and political factors affect social determinates of health, and understand the factors that lead to health care disparities, including race, ethnicity, age, gender, disability, geographic location, and socioeconomic circumstances. Most importantly, you will learn how to advocate for patient populations as well as individual patients, particularly underserved and vulnerable women. In addition, we will train residents on common methods of health care financing and cost-effective care while optimizing quality. Our goal is to create the physician leaders of the future.

*Curriculum is subject to change throughout the year depending on the needs of the program.

About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

To learn more about the benefits and expectations of training with an HCA Healthcare program, view our [Resident and Fellow Manual](#).

Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

2,500+ HCA Healthcare GME scholarly activities in 2020-21.

Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

32+ million patient encounters
7.4 million emergency room visits
215,000+ babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Our experiential learning is rooted in evidence-based medicine that leads to innovative, **real-world patient health solutions**.

Merging the rigor of **ACGME** accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer **National Grand Rounds** that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation's leading medical experts to our residency and fellowship programs.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
