# A Message From Our President

As the largest provider of healthcare services across South Florida, HCA East Florida is committed to providing an excellent experience to every patient, every time. We uphold our mission to care for and improve human life by growing our colleagues, investing in our communities, elevating quality care and putting the patient at the center of everything we do. In this year’s annual Impact Report, we reflect on the past year and the positive experiences we created for all we are privileged to serve and with whom we collaborate. The dedication of our caregivers extends well beyond the hospital walls, and we continue to elevate the care and experiences of our patients and our communities. As we look ahead to the future, we would like to recognize our accomplishments.\*

**Employee Engagement:** HCA East Florida ranked number one across HCA Healthcare in colleague engagement.

**Patient Experience:** HCA East Florida successfully reduced hospital-acquired infections, lowered stroke door-to-needle times and reduced medication errors and sepsis by expanding our risk mitigation program.

\*2021

**Investments:** The new HCA Florida University Hospital in Davie, a \$440 million state-of-the-art medical facility, provides 165 private beds and a full range of healthcare services to Davie and its surrounding communities, including 24/7 emergency care with board-certified emergency physicians. The new HCA Healthcare Center for Clinical Advancement provides a simulation center for hands-on training for the next generation of caregivers. The Galen College of Nursing acquisition ensures we retain and recruit nursing colleagues now and into the future.

**Our New Brand:** In November, HCA East Florida launched the new HCA Florida Healthcare brand for the state by renaming HCA Florida Woodmont Hospital and the new HCA Florida University Hospital. The remaining 12 hospitals followed in March 2022.

Thank you for choosing us to provide you and your families with excellence ALWAYS care.

Charles Gressle  
Division President  
HCA East Florida

# Mission

In pursuit of an Excellence ALWAYS culture, we collectively share the following standards:

**Our Mission:** Above all else, we are committed to the care and improvement of human life.

**Our Vision:** To be your partner in healthcare excellence.

**Our Values:** The foundation of our culture is reflected in the outline of the ALWAYS pillars: Accountability, Leadership, Willingness, Attitude, You First, and Safety.

**Our Patient Promise:** We are committed to excellence always: every action, every patient, every time.

## HCA East Florida by the numbers:

- 17,062 colleagues
- 4,266 physicians
- 5,944 registered nurses
- 10 surgery centers
- 59 urgent care centers
- 14 hospitals
- 105 physician practices
- 7 freestanding emergency rooms
- 8 teaching hospitals
- 2 nursing academic centers
- 19,128 COVID-19 patients treated

# Dedication to Our Patients

HCA Florida Healthcare strives to deliver superior care to our patients during every interaction. Our approach to ensuring high-quality care is rooted in our belief of always doing what is right for our patients.

To learn more about how we are improving patient care, visit [HCAhealthcareImpact.com](https://HCAhealthcareImpact.com)

A photograph of an elderly Black man with a grey beard, smiling while lying in a hospital bed. He is wearing a light blue hospital gown. A healthcare worker in a dark blue uniform is partially visible on the right, attending to him. The background is a bright, clinical setting.

# Protecting Our Patients

HCA East Florida successfully reduced hospital-acquired infections by 66% this year. We remain focused on ensuring the safety of our patients by supporting safety initiatives and sharing best practices across our facilities.

## COVID-19 Response

HCA East Florida continues to respond to the ongoing COVID-19 pandemic.

With each COVID-19 wave, HCA East Florida streamlined operations, learned new clinical skills and implemented programs that help fight the virus. We targeted wage adjustments to ensure competitive rates and worked hand-in-hand with supply chain to ensure personal protective equipment and essential equipment was provided for all colleagues. Additionally, we revamped recruiting practices and incentive activities to assist with getting our colleagues the support they needed.

# Innovations For Care and Research

As part of HCA Healthcare's learning health system, HCA East Florida is connected to more resources, more solutions and more possibilities for everyone who walks through our doors.

## HCA Healthcare has invested significantly in clinical education, including:

**Nursing Schools:** HCA Healthcare owns Galen College of Nursing, one of the largest educators of nurses in the United States, with six campuses and nearly 8,000 students enrolled in the January 2021 term. HCA Healthcare, which employs more than 93,000 nurses, has two additional nursing schools, Research College of Nursing and Mercy School of Nursing.

**HCA Healthcare Centers for Clinical Advancement:** HCA Healthcare has seven Centers for Clinical Advancement across the country that provide nurses and clinicians with state-of-the-art simulation and learning centers to expand their clinical knowledge in a safe and supportive environment. This includes the newly opened HCA East Florida Center for Clinical Advancement in Plantation, Florida.

**Clinical Certifications:** HCA Healthcare also supports colleagues who want to obtain specialty clinical certifications by paying upfront testing costs, providing test preparation materials and reimbursing costs after successful completion of a certification exam. Colleagues also receive bonuses for achieving nationally recognized certifications beyond their current position.

# Supporting Our Colleagues

We are proud to be a part of HCA Healthcare, whose network enables us to unlock numerous opportunities for our colleagues to learn, grow and enjoy a rewarding career.

## Education and Development Resources

HCA Healthcare is proud to support the educational goals of our colleagues and their family members through a variety of programs.

### Vital Voices

Ensuring a positive and inclusive colleague experience starts by giving each of our 17,062 colleagues a chance to share their thoughts in a confidential format. HCA Healthcare sends an onboarding pulse survey to colleagues after 45 and 100 days of employment to receive feedback on the onboarding and recruitment experience. Vital Voices engagement pulse surveys are shared throughout the year to help our teams set goals and make improvements. Not only does this lead to a better experience for our colleagues, but also better care for our patients.

### Colleague Networks

HCA Healthcare has established enterprise-wide, virtual networks to give colleagues the chance to meet and network with peers who have shared experiences and commonalities. So far, seven Colleague Networks have been created for veterans, Black colleagues, women, young professionals, LGBTQ+ colleagues, Hispanic/Latinx colleagues, and Asian and Pacific Islander colleagues – each with a senior leader serving as executive sponsor.

# Mental Wellness

**We are here to support our physicians, nurses and other colleagues so they can continue to provide the superior, patient-centered care our communities deserve.**

**Nurse Care:** This free, confidential, 24/7 support program and counseling service gives HCA Healthcare full-time and part-time hospital-based nurses remote access to licensed psychologists, social workers and marriage and family therapists. In 2021, 24,720 calls were received across the HCA Healthcare enterprise.

**Optum:** This partnership offers colleagues and members of their immediate household up to five free counseling sessions per topic each year. Colleagues can also access free apps, resources and referral services to find help with anything from home maintenance to legal support.

**Motivation Alliance:** HCA Healthcare colleagues can access a free custom version of this service, which provides tools for managing stress and anxiety.

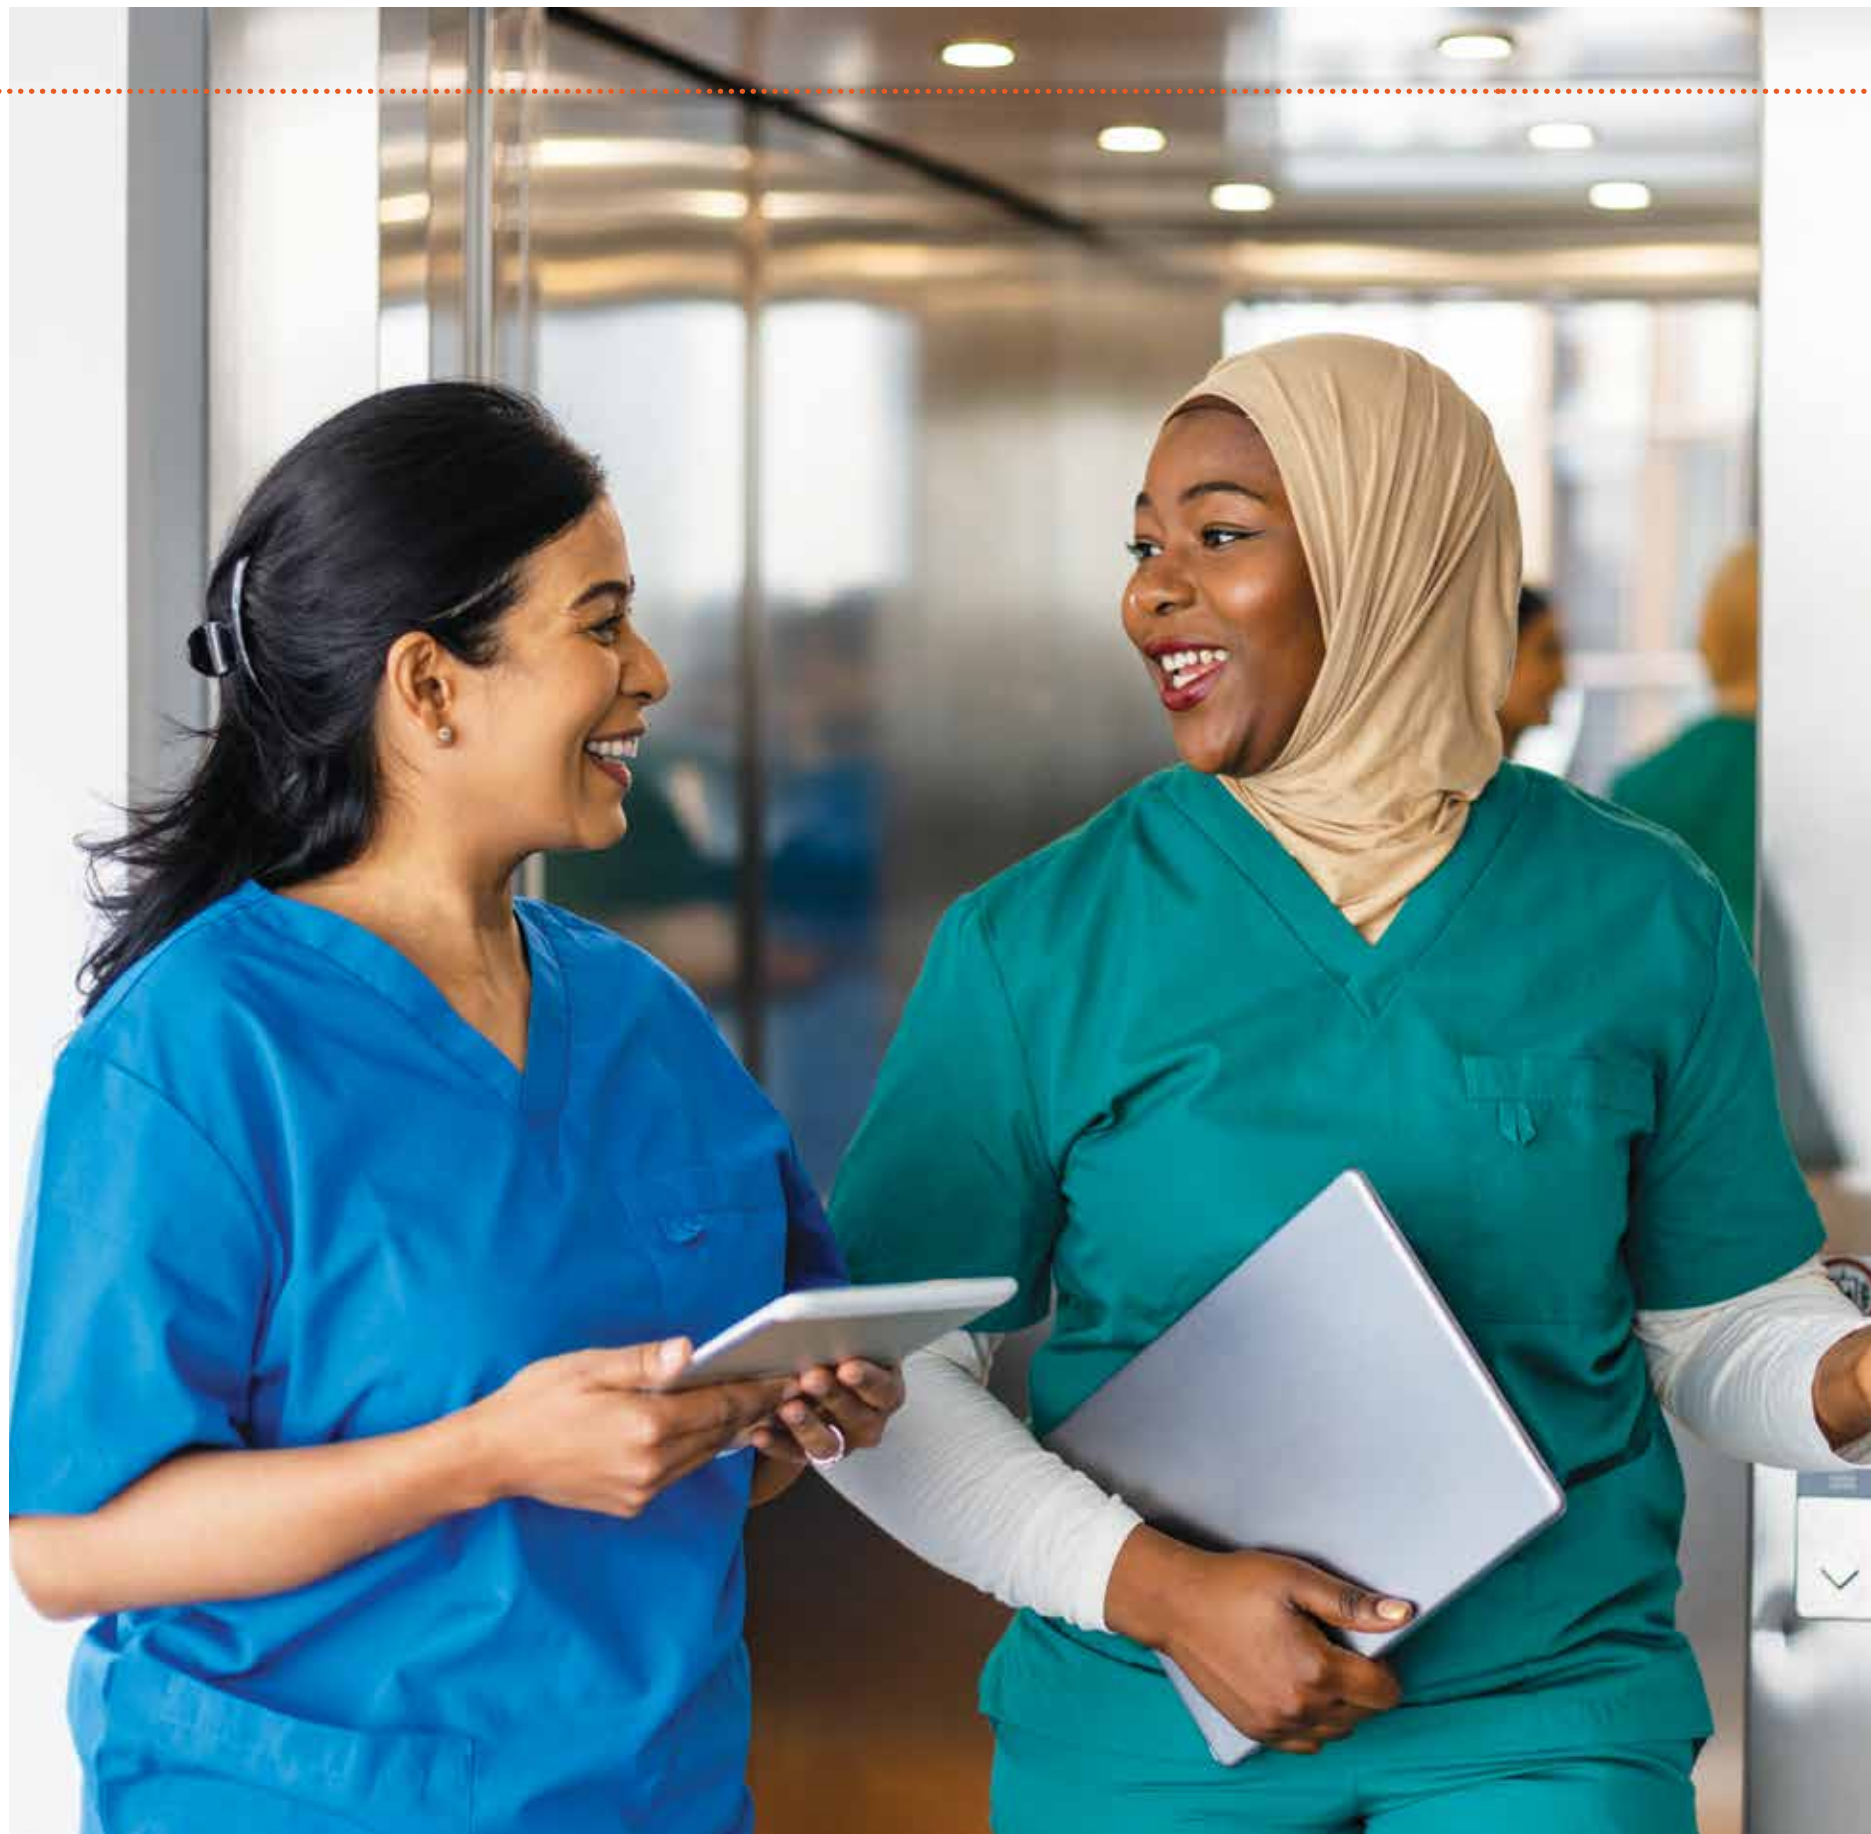

**Doctor on Demand:** Colleagues with an eligible HCA Healthcare medical plan can speak with a board-certified physician any time, day or night, through this telehealth service. Physicians provide care for 90% of the most common health conditions, including stress, anxiety and depression.

# Investing in and Advancing Clinicians

Nurses have an unwavering commitment to caring for their patients and supporting each other. The COVID-19 pandemic showed the world how vital our frontline colleagues are.

# 2022 Nursing Strategy

HCA Healthcare's 2022 nursing strategy, which focuses on four pillars, is based on input and suggestions from HCA Healthcare nurses across the organization – from the local hospital, to the regional division, to the national corporate office.

**Advocacy and Leadership**  
Develop extraordinary leaders at every level and provide unparalleled opportunities for a lifetime career.

**Staffing and Care Team Support**  
Create innovative and effective care delivery models to support care teams and meet patient needs.

**Education and Academic Partnerships**  
Access to industry-leading education and career development opportunities to positively impact patient care.

**Professional Practice**  
Ensure ownership of evidence-based practice to elevate nursing excellence.

# Caring For Our Communities

Whether through volunteering our time, making charitable donations or partnering with other organizations, we are committed to creating healthier tomorrows for our South Florida community.

“Our colleagues continually show up to support the community in remarkable ways,” said Charles Gressle, President of HCA East Florida Division. “We are proud to support the food banks and emergency responders that are working hard to address the needs of our community.”

# Giving and Volunteering

The ongoing COVID-19 pandemic means giving back and volunteering continued to look a little different in 2021, but the commitment and creativity of our colleagues to support our communities through this new normal never faltered.

**\$41M+**

Enterprise giving to community organizations

**1,319**

Volunteer hours

**\$527,113**

Colleague giving with HCA Healthcare matching

**250**

Number of charitable organizations supported through donations and volunteering

## Community Partnerships

HCA East Florida is honored to partner with organizations that share our mission and values in caring for our community. Highlighted below are a few organizations we aligned with in 2021.

**Gilda's Club** was awarded **\$126,000** over two years to support cancer care services in Miami-Dade and Broward Counties. Program highlights include outreach to people of color impacted by cancer and those with limited access to health education and resources.

Cultural proficiency and competency is an important element in providing high-quality health care and preventive services to diverse populations, especially in the setting of cancer care. Gilda's Club South Florida initiated the Health Equity Matters initiative, recognizing systemic racism, health disparities, and the disproportionate negative impact of COVID on communities of color.

**"The HCA Healthier Tomorrow Fund has allowed Gilda's Club South Florida to provide cancer support and mental health services to the Spanish-speaking community in South Florida to ensure that Latinos, as part of this initiative, are receiving more opportunities for high-level cancer care," says Kim Praitano, Gilda's Club, CEO.**

**Pace Center for Girls** received **\$10,000** to fund the Pace Pathways to Healthcare Careers Program. This initiative exposes girls of diverse backgrounds to careers in the healthcare industry through field trips, seminars and a mentoring program.

### American Red Cross

HCA Healthcare shares a long history of partnering with the American Red Cross to provide disaster relief. In 2021, HCA Healthcare made a third consecutive **\$500,000** contribution to the American Red Cross Annual Disaster Giving Program. Over the last five years, HCA Healthcare has provided more than **\$4.6 million** in financial support to the Red Cross for shared disaster response capabilities and relief efforts. We also provide Red Cross leaders with access to our emergency response information system to help coordinate their activities.

### Supporting Mental Health Education with EVERFI

As a learning health system, HCA Healthcare understands the important role that early education can play in addressing the mental wellbeing of kids and adolescents. HCA Healthcare is proud to have partnered with EVERFI, an international technology company driving social change through education, to launch *Mental Wellness Basics*, a digital resource that introduces middle and high school students to mental health education. Starting in 2021, HCA Healthcare has committed to investing **\$3 million** over the next three years to EVERFI to support and expand the Mental Wellness Basics course.

- Since its launch in October 2020, the Mental Wellness Basics course has reached more than 18,000 middle and high school students at 155 schools across the country.

March of Dimes

HCA Healthcare is the largest system for delivering babies in the country and more than **217,000 babies** are delivered at our hospitals every year. Together, March of Dimes and HCA Healthcare are uniquely positioned to use their combined clinical data, pioneering research and passionate history to deliver healthier tomorrows for mothers and babies.

A Workforce Reflecting the Communities We Serve

HCA Healthcare’s first gift to a Hispanic Serving Institution was awarded to Florida International University (FIU).

In April 2022, representatives from HCA Healthcare, HCA East Florida Division and HCA Florida Healthcare presented Florida International University (FIU) with a **\$1.5 million** donation to support the Nicole Wertheim College of Nursing & Health Sciences to expand its faculty and offer scholarships to increase enrollment and address the national nursing shortage.

HCA Healthcare has a history of partnering with organizations to develop future healthcare leaders. The College received funding as part of HCA Healthcare’s support of Historically Black Colleges and Universities (HBCUs) and Hispanic Serving Institutions (HSIs). FIU is a federally-designated Hispanic and Minority Serving Institution with a student body that is 61 percent Hispanic.

Combating the Opioid Crisis

In October 2021, HCA Healthcare hosted its third annual *Crush the Crisis* event, collecting a record **15,566 pounds** of unused and expired medications in support of the Drug Enforcement Administration’s National Prescription Take Back Day. In partnership with local law enforcement agencies, collection sites were set up at **96** HCA Healthcare facilities at **98** event locations across **17** states.

HCA East Florida successfully collected **479 pounds** across **4** facilities. HCA Florida Northwest Hospital partnered with Walgreens to co-host their local *Crush the Crisis* event in Margate. This partnership has since developed into a broader opportunity for other HCA East Florida Division facilities to work with Walgreens stores in the communities to support opioid reduction and awareness efforts.

Environmental Stewardship

As stewards of the environment, we proactively make our communities healthier. We have implemented environmentally friendly practices at all hospitals, promoting conservation, decreasing waste, and exercising environmentally conscious purchasing. By using Stericycle’s Sharps Management Service, HCA East Florida Division is significantly reducing its carbon footprint

In 2021, HCA East Florida was able to prevent **221,687 pounds** of CO2 emissions, while also preventing **373,572 pounds** of plastic and **28,951 pounds** of cardboard out of entering our landfills. In total HCA East Florida recycled over **1,443,000 pounds** of trash.

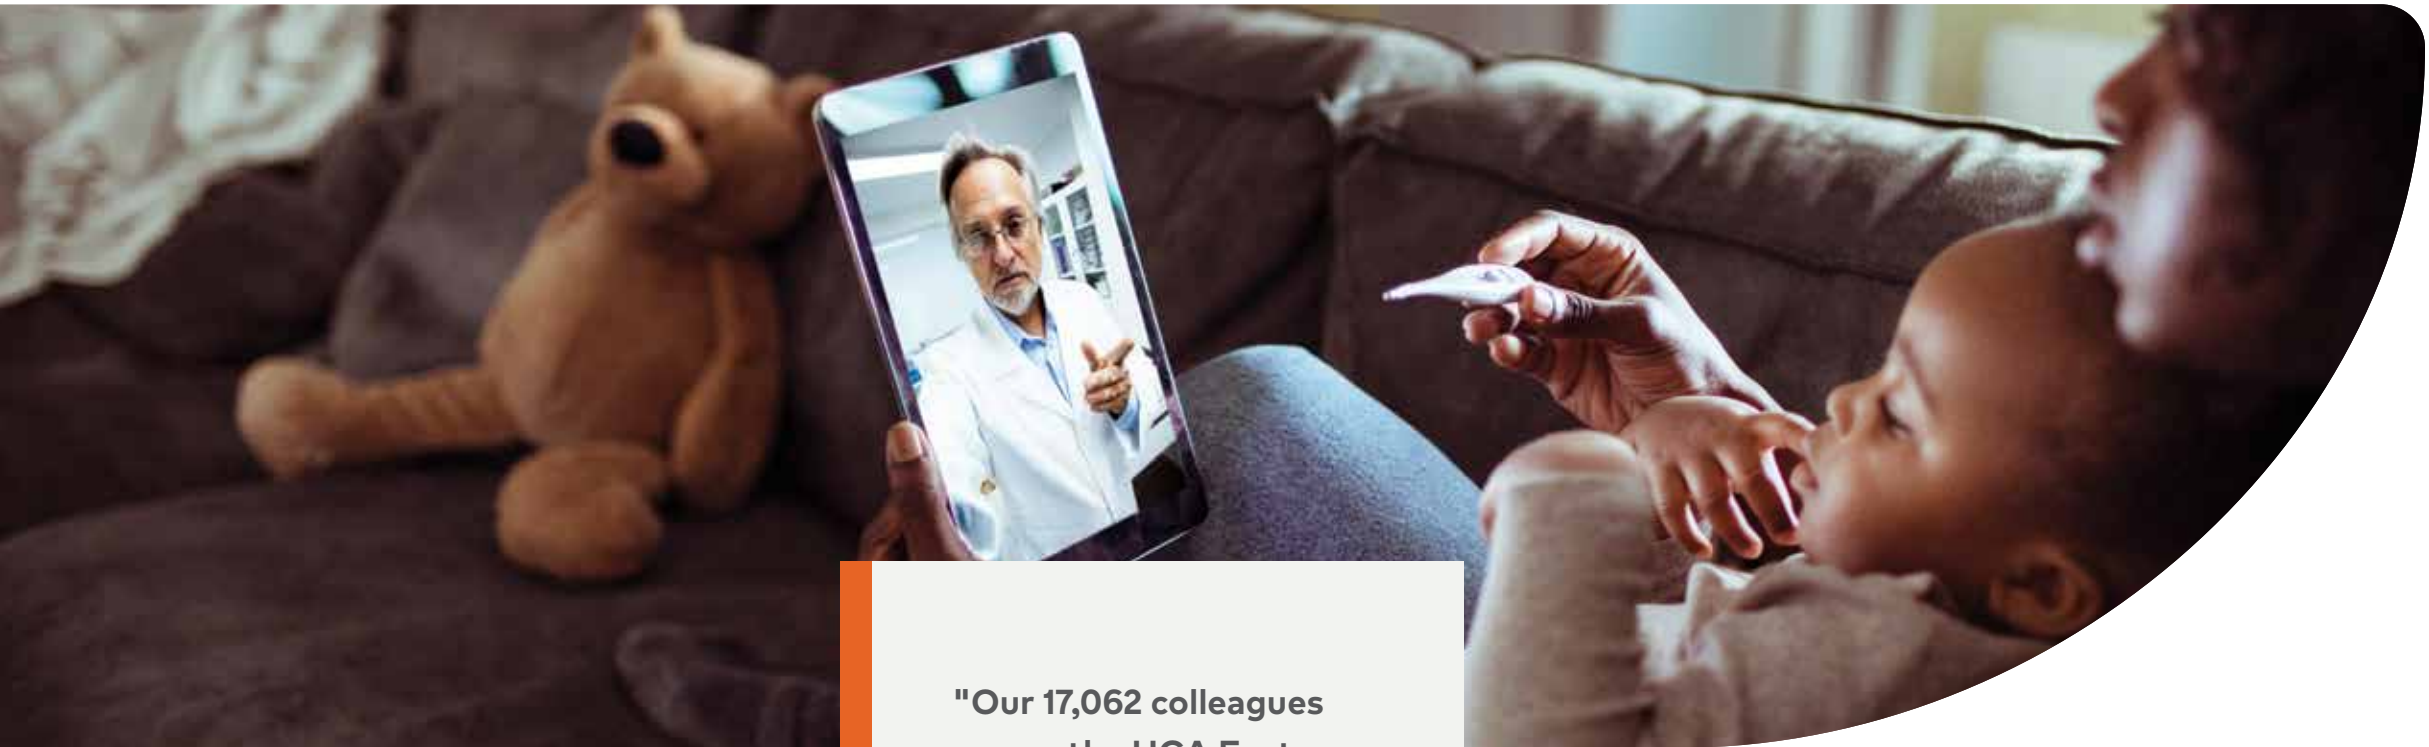

“HCA Healthcare and FIU have enjoyed a longstanding partnership,” said Charles Gressle, HCA East Florida Division President. “This donation will allow FIU to grow their curriculum and offer scholarships to those answering the call to help prepare more of Florida’s nurses; they are the backbone of our hospitals, and our communities and patients benefit from their strength and resilience.”

**Economic Impact in our Communities**

HCA East Florida is proud to serve our communities and we are committed to investing in them for years to come.

**\$1.7B** in payroll and benefits  
**\$287.7M** in capital investment  
**\$264.8M** estimated cost for the delivery of charity care, uninsured discounts and other uncompensated care in 2021  
**\$354.2M** in federal, state and local taxes paid

# Our Hospitals

In 2021, HCA East Florida continued its major capital investment projects. While navigating the challenges and constant changes of a global pandemic, we kept an eye towards the future by committing \$287.7 million to expansions across our 14 East Florida hospitals.

"Our 17,062 colleagues across the HCA East Florida Division deliver on our mission of Excellence ALWAYS every single day," said HCA East Florida Division Chief Financial Officer, Russ Young. "Our culture is what sets us apart, it's a culture of collaboration with one goal - putting our patients at the center of everything we do."

## HCA East Florida At-A-Glance\*:

- 17,062 Colleagues

# Our Services

**Integrated  
Regional Laboratory**

HCA East Florida Division additionally encompasses an Integrated Regional Laboratory (IRL).

IRL is a system of hospital-based laboratories and a sophisticated high-volume core laboratory supporting the clinical laboratory testing needs of more than 250 acute and rehab hospitals, surgery centers, large physician practices and commercial accounts across the United States and the Caribbean.

The Integrated Regional Laboratory is accredited by The College of American Pathologists.

**Emergency Services**

In times of emergency, access to expert care is critical. HCA East Florida is committed to providing leading emergency care to the communities we serve. It takes coordination between our EMS partners and our physicians, nurses and colleagues to provide high-quality care, 24/7.

HCA East Florida provides Emergency Services in 21 locations from Central to South Florida. We are committed to providing access to highly skilled physicians and staff with minimal wait. At our hospital based emergency rooms, patients can expect:

- Average ER wait times at our facilities consistently fall below the national average.
- Our emergency room experts offer compassionate care.
- Patients can check frequently updated average ER wait times on our websites.
- Select facilities offering senior-friendly ERs, which are specially designed to meet the unique needs of aging adults.
- Physicians at our offsite ERs are board-certified in emergency medicine and are committed to providing patients with a high level of personalized care.
- HCA East Florida hospital’s certified stroke centers consistently beat both local and national door-to-needle times in stroke care, according to the American Heart Association’s Get with the Guidelines.\*

**Urgent Care Services**

As part of our commitment to provide convenient healthcare, HCA East Florida has expanded our services to offer 59 Urgent Care centers throughout South Florida. These centers offer healthcare services for non-emergent medical problems that can develop unexpectedly and require immediate attention, filling the gap between primary care physicians and hospital emergency rooms.

**Conditions treated at our urgent care centers include:**

- |                    |                   |                       |
|--------------------|-------------------|-----------------------|
| • Minor Infections | • Bruises         | • Physicals           |
| • Migraines        | • Minor Burns     | • Occupational Health |
| • Sprains          | • Minor Illnesses | • Worker’s Comp       |
| • Cuts             | • Immunizations   |                       |

Our facilities offer on-site x-rays, lab testing, IVs and a procedure room for more complex needs such as suturing and splinting.

Patients in our centers can expect to receive care from a team of highly qualified caregivers, including board-certified physicians. Should an urgent care patient require a higher level of care, access to a full spectrum of hospital services is available.

\*2022, based on most recent data available

## Heart, Lung, and Vascular Services

HCA East Florida has a reputation for excellence in heart care, and provides comprehensive services across the care continuum.

In addition to open heart surgery, we offer treatment for advanced heart failure and atrial fibrillation, the most common heart arrhythmia condition. For patients who are unable, or choose not to undergo traditional open-heart surgery, we offer minimally invasive options to surgical valve replacement. These options are known as transcatheter aortic and mitral valve replacement (TAVR & TMVR).

### Complex Procedures Performed:

- Abdominal Aortic Aneurysm (AAA) Repair
- Aortic & Mitral Surgery
- Atrial Fibrillation Surgery
- Coronary Artery Bypass Grafting (CABG)
- Left Atrial Appendage Closure Device Placement
- Left Ventricular Assist Device Placement
- Minimally Invasive Cardiac and Valve Surgery
- Transcatheter Mitral Valve Repair (TMVR)
- Structural Heart Disease Treatments
- Transcatheter Aortic Valve Replacement (TAVR) (most cases in the tri-county area)
- Thoracic Surgery

### Cancer Care Powered by Sarah Cannon

We are a premier provider of cancer services incorporating the latest innovations in technology, research, psychosocial services and survivorship programs in our care plans. Our goal is simple: to ensure the best clinical outcomes for our patients.

Our Commission on Cancer (CoC) accredited programs take a patient-centered, multidisciplinary approach to care. Medical oncologists, surgical oncologists, radiation oncologists, pathologists and nurse navigators are just a few of the key contributors to the patient experience. From the first diagnosis to the final treatment, we support our patients every step of the way.

HCA East Florida works with HCA Healthcare’s Sarah Cannon Cancer Institute. As part of this relationship, patients may have access to nurse navigation and clinical trials. Sarah Cannon affiliated facilities also benefit to access from national and internal experts on cancer care.

In addition to Commission on Cancer accreditation, HCA Florida JFK Hospital’s Breast Institute is accredited by the National Accreditation Program for Breast Centers.

### Ambulatory Surgery Centers

Our twelve Ambulatory Surgery Centers were founded to provide our patients and physicians with the finest quality of outpatient care, delivered in a compassionate and efficient manner. Our physicians are supported by a highly skilled team of registered nurses and surgical technicians specially trained in surgical and recovery care. The standards of care required by Medicare and other regulatory bodies are strictly adhered to.

Our surgery centers are accredited by the Accreditation Association for Ambulatory Health Care. We have six centers in Miami-Dade County, two in Broward County, three in Palm Beach County and one in St. Lucie County.

### Patient Logistics Center

The mission of the South Florida Transfer Center is to facilitate timely patient transfers, ensuring all patients receive the right level of care when expertise and efficiency are critical. In 2021, the South Florida Transfer Center aligned with the South Florida Behavioral Health Access Response Center to build on the shared efforts of these two teams.

With one call to the South Florida Transfer Center, you will reach the right hospital and service for your patients’ needs. This newly formed team brings together all acute patient transfers for medical and behavioral health patients across East Florida Division and in 2021 managed a total of **750,000** phone calls, **44,000** patient movements and **26,000** transports.

Calls are handled 24/7 by Registered Nurses, Emergency Medical Technicians (EMTs), Licensed Clinicians supporting virtual patient assessments and Placement Specialists sourcing behavioral health beds. All team members are knowledgeable on the Emergency Medical Treatment and Active Labor Act (EMTALA).

Call schedules for every HCA facility in HCA East Florida are visible to the Transfer Center team, ensuring accurate service line availability in the HCA Healthcare network of facilities.

**Transfers for specialty service lines include but are not limited to:**

- Cardiac • Stroke/Neurology
- Labor and Delivery • Burns
- Trauma • Behavioral Health Services

**Transport arrangement for discharges to:**

- Skilled Nursing Facilities
- Long-Term Acute Care
- Rehabilitation Facilities
- Assisted Living

### Behavioral Health

Behavioral Health Services is one of the fastest growing service lines. HCA Healthcare is one of the nation’s largest acute care psychiatric providers. We offer comprehensive, effective inpatient and outpatient behavioral healthcare to help individuals and their loved ones build a path to discovery and recovery. We provide a broad continuum of psychiatric services, including inpatient, partial inpatient and outpatient programs, so we can help individuals achieve their full potential and improve their overall quality of life.

### Neurosciences and Stroke Care

Our neuroscience services encompass comprehensive collaborative care coupled with advanced technology and research to offer amazing new possibilities.

Diagnosis and treatment for a variety of neurological conditions ranging from epilepsy and brain tumors to strokes is available.

The following facilities are recognized as Comprehensive Stroke Centers by the Agency for Healthcare Administration:

- HCA Florida Aventura Hospital**
- HCA Florida JFK Hospital**
- HCA Florida Kendall Hospital**
- HCA Florida Lawnwood Hospital**
- HCA Florida Westside Hospital**

## Trauma Centers

Timely access to trauma centers ensures those experiencing traumatic injury have the best chance at recovery.

HCA East Florida launched its first trauma program in 2009. That means access to specially trained trauma surgeons, orthopedic surgeons, neurosurgeons, anesthesiologists, radiologists and emergency medicine specialists is available around the clock. In 2020, HCA East Florida treated 8,500 trauma patients. Our trauma centers span from Fort Pierce to Miami and include:

**Treasure Coast Trauma at HCA Florida Lawnwood Hospital**, designated as a Level II Trauma Center by the Florida Department of Health and verified by the American College of Surgeons.

**South Florida Trauma at HCA Florida Kendall Hospital**, a Level I Adult and Pediatric Trauma Center Certified by the Florida Department of Health and verified as a Level I Adult Trauma Center by the American College of Surgeons.

**The Trauma Center at HCA Florida Aventura Hospital**, designated as a Level II Trauma Center by the Florida Department of Health.

Our trauma programs partner with one of the state's premier medical schools to establish the University of South Florida/ HCA Trauma Network. This partnership enables HCA East Florida trauma programs to meet goals for research, quality, safety and better outcomes for patients. Florida residents benefit from centralized, statewide data collection for trauma research and coordination of services not readily accessible in underserved areas of the state.

## Orthopedic and Spine Care

Our network of hospitals offers patients access to a full spectrum of orthopedic and spine services for accurate diagnosis and treatment. From conservative measures and pain management to minimally invasive or complex procedures, our hospitals offer an integrated model of care to help patients get back to their everyday activities as quickly and safely as possible.

HCA East Florida's orthopedic programs span from joint replacement and sports medicine to orthopedic oncology. We leverage progressive technology to advance our clinical programs and offer minimally invasive robotic surgery to promote faster recovery.

## Pediatric Care

While all of our facilities are kid-friendly, HCA East Florida offers dedicated pediatric inpatient care at:

**HCA Florida Kendall Hospital**  
**HCA Florida Lawnwood Hospital**  
**HCA Florida Palms West Hospital**  
**Women's and Children's Center**

We understand the impact specially trained professionals and a friendly environment have on the healing process. Our goal is to make kids and their parents feel comfortable, safe and most of all, better.

Our pediatricians and pediatric specialists on staff expertly treat most pediatric conditions. HCA Florida Kendall Hospital's Burn Center provides specialized care for children and infants. HCA Florida Palms West Hospital's pediatric cancer program is accredited by the Children's Oncology Group.

## Women's Health

We are committed to supporting women at every stage of their healthcare journey. Our hospitals offer a full spectrum of services, from maternity care and mammography to treatment for menopause and pelvic health conditions. Our facilities also use advanced technology to treat gynecologic conditions using a minimally invasive approach.

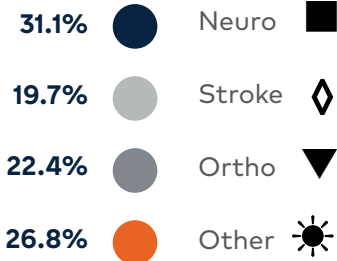

Women depend on our facilities to provide exceptional care, and grow their families. Seven of our facilities offer maternity services and neonatal intensive care units. Hospitals offering maternity services include:

**HCA Florida Kendall Hospital- Level II & III NICU**  
**HCA Florida Lawnwood Hospital- Level II & III NICU**  
**HCA Florida Mercy Hospital- Level II & III NICU**  
**HCA Florida Northwest Hospital- Level II & III NICU**  
**HCA Florida Palms West Hospital Women's and Children's Center- Level II NICU**  
**HCA Florida University Hospital- Level III NICU**

Physical Rehabilitation

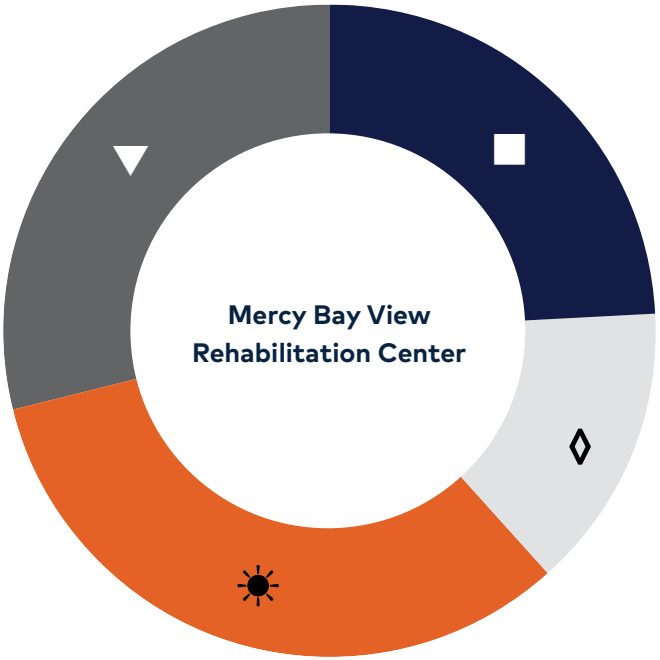

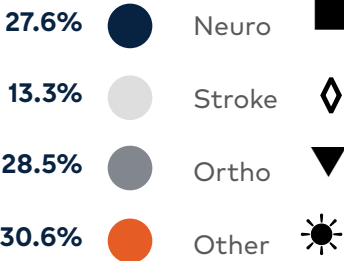

To help ensure the best possible recovery after an injury or illness, we offer a multi-disciplinary approach to rehabilitative therapy. One important key to success in rehabilitation is a team approach.

Case Mix

With a personalized and patient-focused model, our expert team of professionals works together to bring special expertise to the patient. Our highly trained professionals develop an interdisciplinary treatment plan to meet the patient’s individualized physical, cognitive and emotional needs. Our commitment to excellence is reflected in the talented staff who work with our patients throughout their recovery.

# A Whole New State of Healthcare

On March 3, all of our hospitals, physician practices and freestanding ERs united under one brand to create a connected and collaborative healthcare experience for our patients. We proudly work together as Florida’s largest healthcare family to show up for our colleagues, our patients, their families and each other.

Our facilities from Miami-Dade County to the Treasure Coast and beyond celebrated in their own unique ways to introduce the brand to colleagues and the community.

HCA Florida Aventura Hospital put on a spectacular show with fire works and stilt walkers. The Miami Heat dancers and mascot provided entertainment and great photo opportunities!

This “Whole New State of Healthcare” piece of art was prominently displayed at HCA Florida Northwest Hospital. Colleagues were able to sign it and become part of the hospital’s history. It’s called the “Make Your Mark” wall.

This gorgeous mural was painted live outside the south entrance of HCA Florida JFK Hospital while colleagues enjoyed food, a 360-degree video photo booth, dancing and a DJ.

HCA Florida Highlands Hospital treated the staff to a pep-rally style party. Leaders lined the hallways with orange and blue pom-poms to cheer on colleagues during shift changes.

HCA Florida Healthcare received significant media coverage statewide. Locally, 14 stories appeared online, on TV and in print regarding the rebrand. Statewide, there were a total of 58 stories.

We teamed up with OneBlood to host an extensive blood drive that happened simultaneously at all 14 of our hospitals. We successfully collected enough pints of blood to save nearly 200 lives! The donation drive was so popular at HCA Florida Westside Hospital, that OneBlood had to send a second truck.

Families who welcomed newborns at HCA Florida Healthcare facilities on March 3 helped celebrate the launch of the new statewide brand in style. 106 Florida babies now share a birthday with HCA Florida Healthcare.
