

Higher-Quality Urological Care

Retreat Doctors' Hospital has become a destination center for complex urological care through strategic investment in technology, physician and staff expertise, and dedication to outstanding patient experience. Our surgeons perform hundreds of complex procedures each year, and our patients routinely rank us among the country's top performers in terms of patient experience. Please allow us to help fill any clinical gaps in your community's urological care.

Our urology coordinator can assist in connecting your patients with a qualified urologist at Retreat Doctor's Hospital to perform the complex procedure and then smoothly transition them back to your service.

Your Destination for Complex Urological Care

Timely, Award-Winning Care for Complex Patient Referrals in Central Virginia:

- **More than 30 subspecialists** focus exclusively on specific urological conditions and treatments. You can be confident your patient will be matched with an expert physician who offers the latest treatments and technologies, many not available anywhere else in the state.
- **We'll see your patient within days**, not weeks. Your referred patients will receive timely care. No need to wait four weeks or more for an appointment with a urology specialist.
- **Volume matters.** Studies have shown that high-volume providers have better outcomes. Our physicians perform hundreds of complex urology procedures every year with excellent outcomes.

From the moment your patient arrives at our hospital, they receive care from an expert team of professionals. Our physicians, nurses, and support staff work together to provide outstanding care from pre-op to post-op with the best possible outcomes.

Our quality is routinely recognized by Healthgrades.
